Disclaimer

This presentation may contain "forward-looking statements" as that term is defined in the Private Securities Litigation Reform Act of 1995. Forward-looking statements include, without limitation, any statement that may predict, forecast, indicate or imply future results, performance or achievements, and may contain the words "believe“, "anticipate“, "expect“, "estimate“, "intend“, "project“, "plan“, "will likely continue“, "will likely result“, or words or phrases with similar meaning. Forward-looking statements involve risks and uncertainties, including, without limitation, economic, competitive, governmental and technological factors outside of the control of Reynolds Group Holdings Limited (“RGHL”, “Reynolds” or the “Company”), that may cause Reynolds' business, strategy or actual results to differ materially from the forward-looking statements. Factors that could cause actual results to differ materially from the forward-looking statements include without limitation:

- risks related to acquisitions, including completed and future acquisitions, such as the risks that we may be unable to complete an acquisition in the time frame anticipated, on its original terms, or at all, or that we may not be able to achieve some or all of the benefits that we expect to achieve from such acquisitions, including risks related to integration of our acquired businesses;
- risks related to the future costs of energy, raw materials and freight;
- risks related to downturns in our target markets;
- risks related to changes in consumer lifestyle, eating habits, nutritional preferences and health-related and environmental concerns that may harm our business and financial performance;
- risks related to complying with environmental, health and safety laws or as a result of satisfying any liability or obligation imposed under such laws;
- risks related to the impact of a loss of one of our key manufacturing facilities;
- risks related to our exposure to environmental liabilities and potential changes in legislation or regulation;
- risks related to our dependence on key management and other highly skilled personnel;
- risks related to the consolidation of our customer bases, competition and pricing pressure;
- risks related to exchange rate fluctuations;
- risks related to dependence on the protection of our intellectual property and the development of new products;
- risks related to our pension plans;
- risks related to our hedging activities which may result in significant losses and in period-to-period earnings volatility;
- risks related to our suppliers of raw materials and any interruption in our supply of raw materials;
- risks related to our substantial indebtedness and our ability to service our current and future indebtedness;
- risks related to increases in interest rates which would increase the cost of servicing our debt;
- risks related to restrictive covenants in certain of our outstanding notes and other indebtedness which could adversely affect our business by limiting our operating and strategic flexibility;
- risks related to other factors discussed or referred to in our quarterly reports and our annual report, including in the section entitled “Risk Factors.”

Some financial information in this presentation has been rounded and, as a result, the figures shown as totals in this presentation may vary slightly from the exact arithmetic aggregation of the figures that precede them.

The attached information is not an offer to sell or a solicitation of an offer to purchase any security in the United States or elsewhere and shall not constitute an offer, solicitation or sale in any state or jurisdiction in which, or to any person to whom such an offer, solicitation or sale would be unlawful. No securities may be offered or sold within the United States or to U.S. persons absent registration or an applicable exemption from registration requirements. Any public offering of securities to be made in the United States will be made by means of a prospectus that may be obtained from any issuer of such securities and that will contain detailed information about us.

Explanatory Note on Non-GAAP Financial Measures

In this presentation, we utilize certain non-GAAP financial measures, including EBITDA, Adjusted EBITDA and Pro Forma Adjusted EBITDA, that in each case are not recognized under IFRS or U.S. GAAP. These measures are presented as we believe that they and similar measures are widely used in the markets in which we operate as a means of evaluating a company's operating performance and financing structure. They may not be comparable to other similarly titled measures of other companies and are not measurements under IFRS, U.S. GAAP or other generally accepted accounting principles, nor should they be considered as substitutes for the information contained in the financial statements included in this presentation.

EBITDA, a measure used by our management to measure operating performance, is defined as profit (loss) from continuing operations plus income tax, net financial expenses, depreciation of property, plant and equipment and amortization of intangible assets. EBITDA is not a measure of our financial condition, liquidity or profitability and should not be considered as a substitute for profit (loss) for the year, operating profit or any other performance measures derived in accordance with IFRS or as a substitute for cash flow from operating activities as a measure of our liquidity in accordance with IFRS.

Adjusted EBITDA is calculated as EBITDA adjusted for particular items relevant to explaining operating performance. These adjustments include significant items of an unusual nature that cannot be attributed to ordinary business operations, including items such as non-cash pension income, restructuring and redundancy costs and gains and losses in relation to the valuation of derivatives. Pro Forma Adjusted EBITDA is defined as Adjusted EBITDA as adjusted to provide the full-period effect of implemented cost savings programs, divestments, acquisition synergies and business acquisitions to the extent not reflected in Adjusted EBITDA. Adjusted EBITDA is not a presentation made in accordance with IFRS, is not a measure of financial condition, liquidity or profitability and should not be considered as an alternative to profit (loss) for the period determined in accordance with IFRS or operating cash flows determined in accordance with IFRS. The determination of Pro Forma Adjusted EBITDA contains a number of estimates and assumptions that may prove to be incorrect and differ materially from actual.

Additionally, EBITDA, Adjusted EBITDA and Pro Forma Adjusted EBITDA are not intended to be a measure of free cash flow for management's discretionary use, as it does not take into account certain items such as interest and principal payments on our indebtedness, depreciation and amortization expense, working capital needs, tax payments and capital expenditures. We believe that the inclusion of EBITDA, Adjusted EBITDA and Pro Forma Adjusted EBITDA in this presentation is appropriate to provide additional information to investors about our operating performance to provide a measure of operating results unaffected by differences in capital structures, capital investment cycles and ages of related assets among otherwise comparable companies. Because not all companies calculate EBITDA, Adjusted EBITDA and Pro Forma Adjusted EBITDA identically, the presentation of these non-GAAP financial measures may not be comparable to other similarly titled measures in other companies.
